

Too stress to drive?
Too hard to breathe?
No bus information?
We got you cover!

CarBan is an app that aids you to reach your destination,
With just a single tap we'll find you the nearest bus located to your current location and give all the
information you needed
(show map page)

From there we can suggest you multiple routes to your desired destination just by typing in the place
(show POV move)

Even more, We provide real-time updates of any public transportation mode and line you choose
(show line page)

What? You worried about your budget?
Don't Be!
We include all Travelpass that is available on the market.
(show travelpass)

It's cheaper, it's easier and all you need to do is scan when you hop out to pay.
(show QR scan)

Not to mention, we even recorded your monthly budget, so you know how much you've spent for the
month.
(show monthly spent)

We really care about our planet, we calculate how much carbon you saved by relying on us each trip
you've made
(show travel history)

We keep track on your monthly carbon footprint as well
(show footprint page)

Any problems you lack, CarBan got your back!
